

\$Fan Tailed Dragon

By Perry Bailey Copyright December 1999

1. Fold the bill into eighths lengthways face down.

2. Reverse fold all layers.

3. Pull out three layers on each side of the model.

4. Open up the bottom of the model.

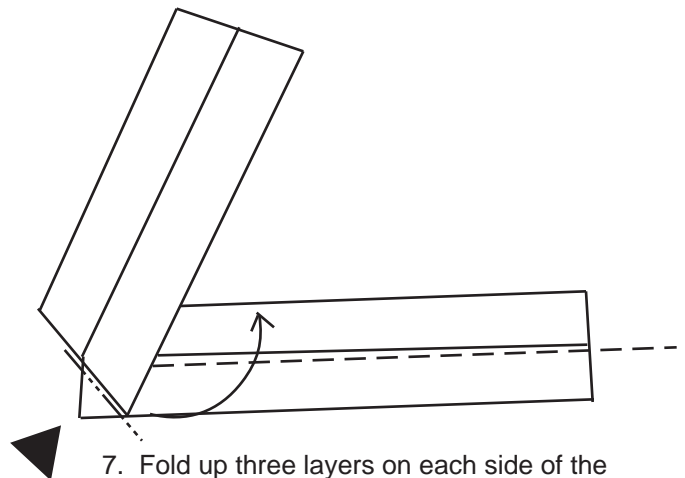

5. Valley fold the bottom of the model over.

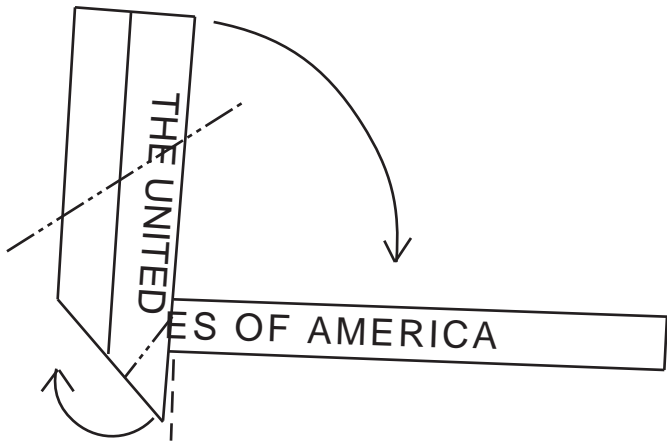

6. Valley fold over.

7. Fold the bottom of the model back down.

7. Fold up three layers on each side of the Model, while pushing in and folding up the bottom corner.

8. Reverse fold the entire top down till it touches the main body. Then use another reverse fold to make the feet (repeat on other foot).

9. Reverse fold the flap back to the front.

10. fold down the top flap of the model.

11. Bring up the middle layer by collapsing the center of the model upwards while refolding the top back together, you will have to sink the back of the top flap into it's self into the model.

12. The results should be like this in shape.

18. Fold over the flaps to form the horns.

19. Rabbit ear the flap into it's self to finish the horns Curl to taste.

20. Fold up the tips to make the fangs.

21. Sink the excess paper to finish the head.

HEAD FORMATION

17 Fold down bothsides evenly this will involve a partial reverse fold.

16 Fold down top layer each side.

15 Pull down inner layer.

14 Fold up 2 layers so that the outside layer comes to a point.

13 Fold in a little at the back of the neck.

22. Now we can start on the end of the beast!

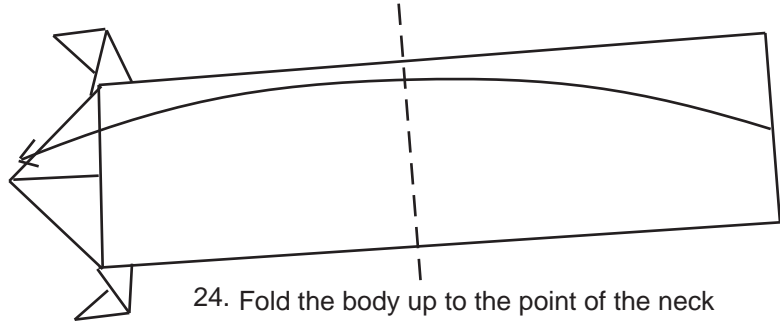

Minus Head

23. Open up the body.

4 of 5

Head and neck not shown.

24. Fold the body up to the point of the neck

25. Partially unfold the bottom and wrap one layer of paper over on each side.

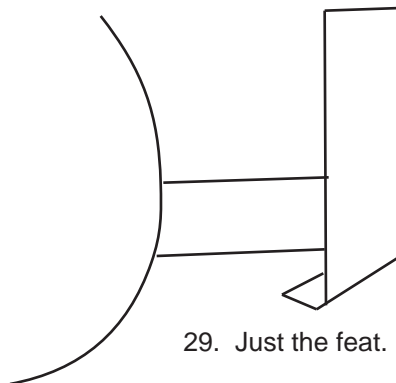

26. Fold the bottom back over.

27. Colapse into shape.

28. Reverse fold up to form the back feet.

29. Just the feat.

30. Fold down the top 2 layers.

31. Fold down the single layer to finish the tail, then repeat the sequence on the other side.

Alternate head sequence

18. Fold down top section on both sides.

19. fold over to form the horns.

20. Fold up to form jaw then go to step 21.

32. Finished! now you can fan the tail out a bit and even puff out the chest a little if you like and put a final curve to the horns!
